

Unfortunately, addiction is becoming more and more common, whether it is to pain killers, alcohol or illegal drugs. Sadly, almost everyone knows someone who either has an addiction or may be battling an addiction themselves. The Trustees, Consultants and Benefit Office Staff have formulated a program to help our laborers and their dependents fight this awful epidemic. This new program is called the **Laborers' Addiction Program** and will begin on February 1, 2018 and is currently scheduled to run through January 31, 2020. Listed below are some of the program highlights.

### **Program Highlights**

- Six-month comprehensive outpatient program.
  - ◊ Includes outpatient detoxification, counseling (group, family and individual), urine drug screenings and Medication Assisted Treatment (MAT) to help control the cravings.
- Available through two treatment centers:
  - ◊ Assisted Recovery Centers of America (ARCA) - Phone: 314-645-6840
  - ◊ Clayton Behavioral Care - Phone: 314-222-5830
- 10% coinsurance will apply **unless** you have met your out-of-pocket maximum for the year.
- ***If you have not met your annual deductible, it will be waived for the program, provided the 6-program is completed.***
- The individual enrolled in the program will be required to make 3 separate payments to the treatment center at specific times.
- To participate in this program, please contact the Welfare Director, Diana Marburger, at 314-644-2777. If you are calling after hours, you may contact one of the two treatment centers listed above.

If you have any questions regarding this program, please call the **Benefit Office** at 314-644-2777 ext. 2.

### ***Did you know?***

*“Roughly 64,000 people died from drug overdoses in 2016, this is the largest annual jump ever recorded in the United States.” -According to The New York Times.*
